

Cultural Arts Workshop in Ghana with Cross Cultural Collaborative

This vacation, will you get away from it all . . .or be a part of it?

Visit Ghana with *Cross Cultural Collaborative* and enjoy the beautiful beaches, the rich culture, and the vibrant village life, while teaching and learning through the arts!

Hear the ocean slowly roll in as you sit on the beach with your novel. Share the joy of a Ghanaian child as she sketches out her ABCs in the sand. Delight in the simple pleasures of creating beautiful art from things that grow.

The Cultural Arts Exchange at *Cross Cultural Collaborative* is a unique real-world opportunity to surround yourself with the tropical beauty of Ghana while creating intimate connections with Ghanaian villagers through art, music and culture.

Our cultural arts center at ABA House is a gathering place overlooking the ocean and the fishing village of Nungua, just south of the capital at Accra. At ABA House, you experience an intimate interaction with the local community every day, immersed in a spiritual culture that is grounded in tradition; where art is part of everyday life. Nungua has become a budding artists colony where potters, batik artists, traditional Kente fabric artists, bead and basket makers, dancers and drummers and many free spirits all contribute to the unique character of the village.

Share the creative spirit of Ghana!

Special travel packages for teachers available. Contact us for more information at:
